Dear Teri,

I just wanted to take a minute of your time and let you know how much we loved your Dodaz Alfresco furniture this year! I know you worked hard to find the perfect colors to fit the Diamondbacks Pool area and they were just right. The purple you chose blended well with the earth tones and the brown leather did the same. The most pleasant surprise was how well the materials held up in the sun. That area gets direct sun everyday when the roof is open and that is about 98% of the time. There were plenty of 115 degree days this summer and there was no fading whatsoever. Additionally, the material held up very well to the wear and tear of being used for 83 games. I don't recall a single tear in the material. It was also good to see that the powder-coat looked the same as the day you brought the furniture to the ballpark. The fact that there was no breakage is amazing.

I will be in touch soon to talk about 2007. Obviously we will need new furniture since we changed our colors and I look forward to seeing what you will come up for next season!

Best regards,

Tim Emory
